

WILD

Sardinia

Vodka

Botanicals:	Wheat
Region:	Sardinia
Distillation Process:	Slow craft distillation, through a steam and copper distillation system. Every single distillation lasts 9 hours and is repeated 3 times to obtain the purest quality possible.
Still Type:	Copper still
Aging Process:	The product is stored in stainless steel tanks
Alcohol Content:	40.0%
Tasting Notes:	The color is transparent and the aromas are almost neutral with light notes of grains. The palate is dry and distinct with soft oily textures.
Cellaring:	No limit to cellaring
Closure:	Cork
