OUR STORY

Empson has been a leading Italian wine exporter for fifty years. It was founded by Neil and Maria Empson whose main goal has always been to bring the beauty and culture of Italy all over the world through its finest wines.

Maria fell for Italy when she attended the Academy of Fine Arts in Florence, vowing to one day return. Years later, when exploring Europe with her husband Neil Empson, New Zealand born and bred, she fell in love all over again alongside Neil. The young, ambitious couple saw the potential in the many stunning regions of the country and in the quality wines produced.

Neil and Maria were pioneers when they founded Empson & Co. in 1972 after a year working as wine brokers. After seeing great success, they established their US company in 1991. Today, Empson USA represents wineries from Italy, New Zealand, Chile, Spain, and the USA and is focused on expanding their portfolio to include many more exciting domestic and international wine regions.

Empson specializes in growers who emphasize quality and value. Today, they celebrate their longstanding relationships – even up to fifty years – with many top wineries. It would begin with a leap of faith that would often grow into a relationship of mutual esteem and trust, and in time, would become pillars of growth and partnership. Neil, Maria, and their daughter Tara are considered leaders in the wine industry and have since expanded their reach across the globe exporting fine wine all over the world.

Now holding the reins, Tara and the entire Empson team are eager to live up to her parents' legacy by investing and strengthening the Empson business model while expanding the company's global footprint.

OUR VISION
